

Dr Mohammad Yazdchi Marandi

Associate Professor of Neurology

Department of Neurology , Faculty of Medicine, Imam Reza
Hospital, Tabriz University of Medical Sciences, Tabriz, Iran

Tel : +98(411) 334 2889

Fax : +98(411) 334 2889

Cell phone :+98 914 116 5992

E-mail: yazdchim@yahoo.com

Date and Place of birth 12 rd July 1964 Tabriz- Iran

Personal Data

Male, married with two Childs.

Education

1. Faculty of Medicine ,Tabriz University of Medical Sciences, M.D. 1982-1990.
2. Department of Neurology , Faculty of Medicine, Tabriz University of Medical Sciences ,
Specialty Board in Neurology, 1990-1994.
3. Electrodiagnostic fellowship, Professor Vera Brill clinic, Toronto General Hospital , Canada,
February 2, 2004 to August 2, 2004

Training course

Department of Electro diagnosis (EMG – NC study, Evoked potentials) Logmanodoleh
Hospital, Shahid Beheshti University of Medical Sciences ,1998.

Professional Experiences

Head of Electro diagnostic ward of Emam Khomeini Hospital, Tabriz University of Medical
Sciences, 2005 - 2007.

Educational affair of Neurology unit , Imam Khomeini hospital, 1997 to present.

Associate professor , Neurology Department , Faculty of Medicine , Tabriz University of Medical Sciences. 1996 to present.

Educational affair of Neurology group , Imam Reza hospital, 2007 to present.

Scientific Associated Members

Iranian society of neurological sciences , since 1998.

Eastern azabaijan society of epilepsy.

Teaching Experiences

Taught medical students (neurology course).

Taught neurology residents (neurology course).

Taught neurology residents (EMG – NC course).

Taught physiotherapy students (neurology course).

Yazdchi M. Late responses in electrodiagnosis (review). The first congress of Electrophysiology of Iran .6-9 Nov 2002 ,Tehran, Iran.

Researches :

The study of BMI and antropometric values in carpal tunnel syndrome.
The study of Martin Gruber anastomosis in carpal tunnel syndrome.
The study of serum homosystein in Parkinson disease.
The prevalence of common neurological diseases in northwest of Tabriz.
The effect of blood glucose in polyneuropathy and the duration of mechanical ventilation in medial ICU patients.
Pulmonary function test abnormalities in Parkinson disease.
Intensive insulin therapy in ICU patients.
The study of polneuropathy in COPD patients.
Optic nerve involvement in COPD patients.
The study of diagnostic sensitivity of sonography in carpal tunnel syndrome.

Supervised Neurology Residency Thesis :

The study of SSR and heart rate variation in Guillan Barre syndrome. J . Najmi. 2005.
The study of diagnostic sensitivity of sonography in carpal tunnel syndrome. Ebady . 2009
The study of renal function in stroke. Sh. Bidahri, 1999.
The study of cardiolipline antibodies in stroke. J. Yousefy, 1998.

Supervised Medical Students Thesis :

Pulmonary function test abnormalities in Parkinson disease. (as colleague), S. Motadayyen, 2006.
Neurologic complications of rheumatoid arthritis and relation with stage of disease. N. Masoumi, 2006.
The study of sympathetic response in carpal tunnel syndrome. F. Rahmani, 2005.
The study of Sural Sparing In AIDP and CIDP., M. Azizpour, 2005.
The study of F wave in carpal tunnel syndrome. F. Parsafar, 2004.
The morbidity of GBS in ICU. A. farjami, 2004.
The relation between cranial nerves involvement and electrodiagnostic form of Guillain barre syndrome. D. Sanaey, 2004.
The study of Evoked potentials in Multiple Sclerosis. P. Hakimi, 2003.
The study of myasthenic jolly test in myasthenia gravis. J. Parchezari, 2003.
The study of Cytomegalovirus infection in Guillan Barre' syndrome.
The study of optic neuritis in Imam Khomeini hospital admitted patients. V. Bavili azar, 2001.
The study of patients with CIDP. R. Naghyeh, 2000.
The study of Myasthenic crisis in neuro ICU. N. Milanchian, 2000.
